CARPENTER & ROSS :: Mansfield, Ohio

I N T R O D U C T I O N

IN PRESENTING this catalog to the public we feel that the animals are of rare value and they have the pedigrees to back it up. It has been our custom to sell only cattle that we would like to keep, and it is gratifying to us to know that the cattle we have sold have been very satisfactory to the purchasers—an asset which we feel is worth a great deal to us. The imported cattle are thin as they have had a hard trip and cattle that have come right off such a trip usually go in the sale ring in thin condition, but they are just in the right condition to go ahead and give satisfaction. The home bred cattle are the production of cows we have selected for their worth as producers; nearly every animal is from a selected dam which has been kept not only on account of her individual merit but on the merit of her ancestors and their value as producers. It has been our good fortune to have some of the greatest sires of the breed, and there has never been a bull we wanted that we did not possess and we have never possessed a bull we wanted that money could buy. We feel that we are particularly fortunate at the present time by owning a half interest in IMP. RODNEY, and we intend keeping sons of his from some of our best cows to be used in our herd.

We have made it a policy never to put our sale cattle in extra high condition, i. e., in condition enough to endanger their breeding value as we do not wish to make all the money there is in them. We would rather sell them in such condition that we know they will go ahead and be profitable for their purchaser. We are in the cattle business not only because we find it profitable, but because we like the business and like the people with whom we do business, and altho we have handled and sold more cattle than perhaps any other pure-bred breeders we can still say that we have never been sued or never had to sue. There are few lines of business that this can be said about that has been handled so extensively.

Many of the home bred animals are strong in the blood of Avondale which must be conceded the greatest sire of all time. Of

course we would admit that Avondale had perhaps a better chance than some sires have had as he was used on nothing but choicely selected cows, and a study was made of their ancestry as well as a personal knowledge of their ancestors which insured their value as producers. Many of the females we are now selling are in calf to RODNEY, Maxwalton Rodney, Maxwalton Lochinvar, Maxwalton Mandarin and Maxwalton Eagle. All of these bulls have been winners and are selected as stock bulls to be retained at Maxwalton. All of the females of sufficient age are bred and a number of them are well along in calf. These cattle are right in color and conformation, which has been the motto of our herd—Like begets like and the best produces the best.

AMERICAN CERTIFICATES OF REGISTRY will be furnished with all the home bred and a few of the imported cattle, but only English certificates will be furnished with this years' importation. All fees are paid on them except the \$100.00 fee, which we are leaving to the purchaser to pay when he wants to have them put on record. It is well to note that if these animals are exhibited at the State or International show and win a ribbon within twelve months the \$100.00 fee will be refunded. All calves sold with their dams are exempt from the \$100.00 fee.

GUARANTEE: Every animal sold as a single lot is guaranteed a breeder. Should any cow or heifer that has passed over six weeks fail to be in calf a refund of 10% of the purchase price will be made, but this does not apply to cows that have calves at foot. Purchaser has the option to accept the 10% refund and get them in calf to his own bull or return them to us to be got in calf. Should any of the animals after a reasonable trial by us fail to be a breeder purchase price will be refunded or an animal of like value given in exchange, just as the purchaser wishes.

SHIPPING: All the cattle will be cared for and put on board the cars for the purchaser. We assume all risks, and should any of the animals meet with an accident, die from sickness, be rendered useless within six weeks after sale they are covered by insurance and the purchaser will receive the purchase price. Should any animal fail to pass the Tuberculin Test 60 days after sale we will refund purchase price, but it must be understood that the test must be made by a Deputy State or Federal veterinarian, that is, he must be a veterinarian of standing and recognized as such by the officials of the State. It is of course understood that the retest can be made in 60 days and we allow 30 days to make the test. The test on the imported cattle is covered by the insurance, and no claim will be acknowledged if the test is not made within 90 days. You take no risk in buying from us as everything is fully guaranteed and protected by insurance. **WE ARE IN THE BUSINESS TO HELP YOU AND ASK YOU TO MAKE IT YOUR BUSINESS TO HELP US.**

Very respectfully,

CARPENTER & ROSS

Maxwalton Major—was used for three years in the University herd at Columbia, Mo, where he gave excellent satisfaction; a number of his calves were sold to go to South America. We showed him at 12 Fairs last year and he won "first" at 10 of them and was senior and grand champion at some of them, beating all of our other bulls. He is a beautiful dark roan and a high-class individual and a bull that we can recommend.

This bull is fit to head a show herd and is an excellent sire as we already have some calves by him. We had considered keeping him in our herd for show and service, but as we have two other white bulls we can spare him. He won at a number of the best shows last Fall and is a bull that we can recommend to anyone in want of a high-class individual.

Garbity Royal Record is of the Marr "Princess Royal" family that has produced so many good ones in Scotland. This calf's sister topped the Garbity sale last September where the entire herd averaged \$3,500, with the calves sold separate from their dams. His dam was sold at ten years of age at about the average of the sale and the sister went to the Collynie herd. This calf was an excellent individual and will be a valuable sire for any one. He is rather handicapped in condition as he was weaned young and the trip has been rather hard on him.

Edgcote Broadhooks is a massive red, has splendid head and horns and general conformation. He is a show bull in any company as well as a great sire. We purchased this bull in Scotland in 1918 on account of the beautiful crop of calves we saw by him there, and afterward sold him to W. C. Sutherland, Galt, Ont., Canada. Have since purchased Mr. Sutherland's entire herd and again have this bull for sale. Two of his calves stood well up in the money at Toronto last year—one of them was conceded to be one of the best young females in the show. He is sure and active and guaranteed in every way.

"Snowstorm" is of the well known Miss Ramsden family. His dam is conceded to be the best brood cow in the "Kinellar" herd. He was purchased in Scotland last year at a cost of \$10,000 and was considered the best calf of his year in Scotland. We have been using him considerable in our herd and believe that he will make a great sire.

Rosetta 15th is from the same dam as Imp. Rodney and she is sired by Quartermaster, the same sire as Queen's Guard. This is a family that is held very high in Scotland, in fact there is no family that will outsell a "Rosebud." We had to pay a long price for this heifer. Altho she is but a baby calf she should be a valuable addition to any herd and no good herd will be complete without her.

A nice level heifer, her dam is one of our best young cows and we are particularly fond of this "Jealousy" family. Her sire MAXWALTON MINSTREL has been used by us a number of years and is giving very good results. COLLYNIE KNIGHT VICTOR was the top calf of his year at Collynie. This heifer is safe in calf since February 2nd to MAXWALTON RODNEY 850358, the record price bull of 1920.
